## Atlanta's 12 Best Hotel Restaurants

By Christopher Hassiotis | May 11, 2016

Whether you're spending the night or dropping in for a meal, a hotel restaurant can offer respite from a city's dining scene. At their best, hotel venues appeal to company-card-carrying corporate folks, often splurging on ingredients, decor and staffing that go-it-alone restaurants can't. (At their worst, food can be bland, service slow and dining rooms lonely.) But we're here to talk about the good ones! All of these dining spots are worth a visit.

### Livingston Restaurant + Bar

Located directly across Peachtree from the Fox Theatre within the **Georgian Terrace** hotel, Livingston should provide that same throwback element of classic early-20th-century Americana and glamour. The food aims for that same sort of

modern-meets-classic-Southern; just take a bite of the tangy sweet tea pressed crispy duck or the savory-and-sweet sorghum-and-sea-salt brick chicken to see how things work.
